Enrichment Program

Academic Year 2025-2026
Semester 2 – January to June 2026

Soccer Clinic

Confident skilful young players? Our sessions focus on building strong fundamentals such as ball control, dribbling, passing, shooting, defending, and goalkeeping techniques, ensuring every child develops a well-rounded skill set. Alongside individual skills, players will learn how to read the game, make quick decisions, and understand team strategies through fun drills, small-sided games, and match play. Players will deepen their understanding of gameplay through scenario-based drills, tactical sessions, and competitive match play that encourage strategic thinking and decision-making under pressure.

Aviation & Drones – Eaglets & Falcons!

A top-of-the-line aviation and drone program to inspire the aviators of the future. Students will cover science of flight through a well-developed pioneering STEM – Science Technology Engineering Mathematics methodology. What is an aviation programme without drone flying? Yes, several drone theory/practical lessons have been seamlessly included for our Eaglets & Falcons.

★ Junior - Eaglets

Lesson content will cover the timeline of flight from its EONs beginnings to its early pioneers. Next students will cover the concepts behind flight – the forces that act on it and its various maneuvers. Students shall also learn the about the future of aircraft design. Lastly, students will take to the air with several drone practical flying lessons. Practical activities will include kite/twirler flying, pressure rocket, parachute throwing, various paper plane folding, magnus glider building, mini-drone flying – These are just some of the items used in the aviation kit provided for the students to bring back.

Tennis

★ Red Stage

Our junior programs are designed to stimulate and challenge children of all levels and age groups. Your future champions will learn more than just how to hit a tennis ball. They will learn how to address and respond to success and challenges and how to have fun playing the game of tennis. Instructors use age and skill level appropriate drills, games, and other teaching aids, so students will learn how to grow from simple tasks to more challenging exercises.

★ Orange Stage

In this stage, players will develop a further understanding of game tactics, point patterns and decision making skills based on court position. With increased confidence, players will now play the game intending to challenge their opponents. There is an increased focus on playing from the 3/4 court baseline and at the net, while practicing tactical skills such as decision making, shot placements, and taking time away from the opponent.

★ Green Stage

Players will continue to develop their athletic abilities, allowing them to position themselves better for optimum swing speeds, swing shaping, and contact points. Players will also refine their technical skills and apply them to various tactics using 'live ball' drills to construct offensive points and game strategies.
