Overseas Family School
Kindergarten

Master Policy:
To maintain a happy, safe and effective school for overseas families living in Singapore

Principal's Message

Term Two began with so much excitement as we launched our new IEYC Units of Learning! Across all four grade levels, our teachers planned special "Entry Points" to spark the children's curiosity and build their enthusiasm for the learning ahead.

- **Pre-K1: The little ones enjoyed a morning of movement and exploration as they developed their gross and fine motor skills while dramatizing the story We're Going on a Bear Hunt.**
- **Pre-K2: The children arrived at school one morning to discover a toyshop in their classroom, along with an important letter from the Toymaker.**
- **K1: One morning, the children arrived to find mysterious dinosaur footprints scattered throughout the Kindergarten.**
- **K2: Our students teamed up on a rescue mission to help different animals in need.**

The children absolutely loved these experiences, and we can't wait to see how each unit unfolds. We believe that learning is strongest when home and school connect, communicate and collaborate. Please do share with your child's teacher your child's interests from the unit and any learning or progress you see at home. We would love to hear about it!

Our K1 and K2 students joined Elementary School for an exciting preview of Dino-A-Live: A Premium Dinosaur Odyssey, a unique dinosaur show from Japan coming to Resorts World Sentosa. Our students were in awe as the enjoyed an interactive dinosaur walkabout featuring a life-sized T-Rex measuring approximately 3m x 8m, bringing the prehistoric world to life right here at school!

Our Internationalism Celebration on 30 October was a truly memorable day. The Kindergarten children delighted us with a selection of songs and dances from around the world, followed by a multicultural pot-luck lunch in each Kindergarten classroom. The children and many of our parents looked wonderful in their national attire or country colours. The celebration beautifully showcased the rich cultural diversity of our Kindergarten community. My sincere thanks to our dedicated Kindergarten team for preparing the children so well for the concert, and to our wonderful parents for the delicious shared lunch.

Over the past few years, our K2 teachers and students have had a special collaboration and friendship with the teachers and K2 students at MOE Kindergarten @ Angsana. Previous collaborations included Google Meet video calls and a visit by their teachers to OFS Kindergarten. This year, we planned a dance collaboration in which each school taught the other the dance steps from its concert item through a recording. It gave our students a chance to perform for an audience and was a wonderful lead-up to our Internationalism Concert.

Coming up next is our Diwali "Festival of Lights" celebration which will be held on Thursday, 12 November 2026. It will be a special dress-up day for the children, who will enjoy painting Diyas (clay lamps) and creating colourful rangoli patterns.

From The Parent Association (PA) Desk

Warm wishes for November!
Happy Deepavali to all our families celebrating the Festival of Lights! May this special occasion bring joy, peace and happiness to your homes. To all students preparing for their exams, we wish you confidence, focus and success. May your hard work lead to wonderful results. Remember to rest well, stay positive and do your best!

Kindergarten Internationalism Concert

Pre-K1 News

As an exciting Entry Point to our unit Little Movers Make Giant Strides, the Pre-K1 Bunnies embarked on a fun-filled role play inspired by We're Going on a Bear Hunt. The children crawled, jumped, and rolled through an obstacle course that brought the story to life, before crafting their own bear and scenery artwork using painting and collage techniques!

Throughout the unit, the Bunnies have shown incredible resilience and adaptability while strengthening their fine and gross motor skills. Classroom favourites included the "Bunnies' Superstar Stage," where children sang and played instruments to boost auditory coordination, and the "Bunnies' DIY Shop," where little builders honed hand-eye coordination using small tools. In the gross motor room, navigating obstacle courses gave them plenty of practice with balance, spatial awareness, and core strength.

We are so proud of the Bunnies' growth and confidence, and we can't wait for more fun, movement, and discovery ahead!

Pre-K2 News

The Pre-K2 children have begun their exciting new IEYC unit, My Toy Shop. After returning from the holidays, the children discovered a mysterious toy shop set up in the classroom, complete with boxes of toys and a special note from a mysterious toymaker, who had entrusted the shop to them to look after!

The children eagerly explored the toys, identifying and sorting them into different categories, including dolls, vehicles, blocks and sand toys. Once everything had been sorted, they arranged the toys neatly on the shop shelves and created price tags, ready for business!

Through books and discussions, the children discovered that different toys have different purposes and ways of being used. They also became creative toymakers themselves, using lollipop sticks and decorative materials to design their own toys. They continued the fun by making sock puppets, using a similar approach and exploring how everyday materials can be transformed into something new.

The children also enjoyed bringing in their favourite toys to share with their classmates. During their presentations, they introduced their toys, explained what they were used for and shared why they were special to them. These experiences encouraged the children to develop their communication skills while learning more about one another and the toys they love.

We look forward to many more exciting discoveries, creative adventures and playful learning experiences as the Pre K2s continue their journey through My Toy Shop.

K1 News

The children had an exciting time exploring the Entry Point for our new Unit of Learning, Dinosaur Detectives! Their adventure began when they discovered a trail of enormous footprints leading from the Kindergarten entrance, up the stairs, and into the Activity Room. Equipped with magnifying glasses and binoculars, the children eagerly investigated the mysterious footprints and quickly concluded that they must belong to dinosaurs!

As they followed the footprints upstairs, there was lots of curiosity, discussion, and imaginative thinking about how the dinosaurs might have made their tracks. The excitement continued when the children entered the Activity Room and discovered two large dinosaurs guarding a nest of eggs. They were fascinated by the eggs and enthusiastically shared their ideas about which dinosaurs might be hiding inside.

When the eggs were finally opened, the children were delighted to discover baby dinosaurs! They were thrilled to take their new little dinosaur friends home, ready to care for them and continue their dinosaur adventures. What a wonderful start to our Dinosaur Detectives learning journey!

(K1 Team)

K2 News

The K2 children have been thoroughly enjoying a range of fun and engaging activities as part of our Animal Rescuers unit. During our Entry Point, the children followed clues to help rescue a lost puppy named Pickles, a bird stuck in a tree, a cat trapped in a castle, and polar animals caught in an oil spill. These exciting rescue missions sparked the children's curiosity, and they are beginning to ask thoughtful questions and show a growing interest in the different animals and their habitats.

The children have particularly enjoyed Learning Block 1, Into the Jungle, and have now begun Learning Block 2, On Safari. We have been exploring the savanna, and the children were excited to compare it with the jungle, noticing differences in the environments and the animals that live in each habitat. We look forward to continuing our explorations as the children develop their knowledge, curiosity and understanding of the animal world.
